

# BECKOPOX™ EP 2352w/54WA

## MADE FOR TOUGH CONDITIONS

**BECKOPOX™ EP 2352w/54WA makes waterborne epoxy systems easier and more reliable.**

Its outstanding shear stability ensures smooth processing during high-shear mixing and consistent application, even under demanding conditions such as airless spraying. For formulators and applicators, that means less risk, more control, and coatings that perform as expected.

### KEY BENEFITS

#### Stable in demanding conditions -

Maintains integrity even under high-shear processing at temperatures up to 60 °C.

#### Smooth, durable results -

Helps achieve robust finishes that meet high performance standards.

#### Reliable process performance -

Supports consistent production results in challenging manufacturing environments.

#### Airless application ready -

Designed for efficient, straightforward processing without additional adjustments.

#### Excellent wetting performance -

Promotes uniform coatings and high-quality surface finishes.
